## Senior Project Handbook

---

### **What is a Senior Project?**

A Senior Project is a comprehensive assignment that is designed to be a culmination of each student's academic experiences from his/her high school career. At Mountain Home High School, this project will include a **paper reflection, resume, and a presentation** which will reveal the student's progress over their high school career.

### **What are the state requirements for the Senior Project?**

The requirements from the state for the Senior Project are that it includes a paper and oral presentation and must be completed by the end of the 12th grade year.

- The paper can be any research paper you have done, but must have at least one source cited in MLA format.
- The Presentation

At Mountain Home High School, **the Senior Project** is to serve as a reflection of the student's growth over their four years at Mountain Home High School. The presentation gives the students the ability to share with the faculty how their education has shaped them through what they have learned in and outside the classroom. The overall goal of the project is to help in bringing focus to the senior year, build self-confidence, and give students a chance to showcase their knowledge, skills and talents.

---

### **Dual-Enrolled Students:**

The Senior Project is mandatory for all students who anticipate graduation from Mountain Home High School. Each student must complete senior project requirement.
